FREE EVENT
Cash bar and light appetizers until 5:20pm followed by presentations with Q&A to follow

October 10
**Tidal & Hydrokinetic Energy**
Come hear about advances to technologies that harness the energy of moving water that could one day power much of Alaska.

October 24
**Net Zero Buildings in the North**
Come hear what Alaskans are doing to design and build homes that can produce as much energy as they consume.

November 7
**Residential Solar**
Come learn about trends in solar PV installation in Southcentral Alaska, and the policies that incentivize it.

November 28
**Climate Conversation**
Join us for a moderated discussion about climate change that includes a range of perspectives and backgrounds.
