Thursday, March 28 at the Anchorage Museum - 625 C St. (please check in at museum front desk)
5:00 - 5:30 PM - Happy hour with cash bar and free light appetizers + UAA Energy Art Show
5:30 - 7:00 PM - Presentations and audience Q + A

Climate Dialogue
with UAA and the Municipality of Anchorage

Join us for a discussion using UAA and APU's Books of the Year selection, Drawdown, edited by Paul Hawken, to frame the Anchorage Climate Action Plan (CAP). Get an in-depth look at how solutions presented in Drawdown can effect change in Anchorage today.

Drawdown Solutions to be discussed:
Solar - Electric Vehicles - Food Waste - Retrofitting - Walkable Cities

Speakers:
Libby Roderick is Director of the Difficult Dialogues Initiative at UAA, the Associate Director for UAA’s teaching and learning center, and the Director for the UAA/APU Books of the Year program. Libby will be moderating this discussion.

Jackie Cason is an Associate Professor in UAA’s English department, where she teaches a public science writing course. She is a Faculty Fellow with the Dialogues for Public Life program and a member of the Books of the Year Committee.

Catherine Kemp is a Special Assistant in Mayor Ethan Berkowitz’s office at the Municipality of Anchorage. She serves on the Anchorage CAP Steering Committee and will be giving an overview of how it relates to the Drawdown solutions.

Chris Rose is the Executive Director at Renewable Energy Alaska Project. At Chris’ direction, REAP has worked tirelessly to advance Alaska’s clean energy future. Chris will be offering historical, present, and future context on the Drawdown solutions.
